

HOGS FIVE LOWER

Influence of Eastern Markets Weakens Local.

TOPS STRIKE \$3.80

Light Receipts For Monday--No Cattle Sales.

Owing to universal weakness of all the other live stock markets, decline in the provision pit, grain lethargy, light receipts, and other weights, depressing influences, the local live stock market yesterday was dull and lifeless, no special features marking the day's transactions. Early reports from other centers were not encouraging for either a higher market or stronger tone. The first dispatch from Kansas City was at 10 o'clock, stating the market was "weak to 10 cents lower." The final bulletin from that point was: "Prices lower in sympathy with hog receipts; majority sales 5 to 10 cents lower." Most of the early sales, which as a matter of course were wagon trade sales, went at around \$3.75, which was the lower scale of the bulk for Saturday. The receipts in both branches were very light even for Monday, and it was not easy to formulate a basis for quoting a regular market. The general tone of all the markets outside of this point was weaker and lower than here, and the local market sustained all the strength capable under existing circumstances. The quality was also a factor that was as puzzling and enigmatical to arrive at as the general quotation for the day. Just four car lots crossed the scales, and these were fair to good. Still, cut-outs and lights abounded, sufficiently to make it necessary to sort out the pigs and coarse stock for sale to other purchasers than the original buyers. All the buyers were more or less depressed in the field, both as to the choice selection of both car lots and wagon trade, and Woods buying some of the scattering smaller branches to complete a Monday shipment on eastern orders. The market was really dispirited, and at prices all they could command, the universal conditions being as they were. All the stuff offered was easily disposed of, and the pens were cleaned out early, and the demand was as steady and firm as the close as at any time of the day, the supply being at all times below the call.

The receipts everywhere were lower than was estimated or than should have been relatively considered with Saturday. At Chicago the receipts were \$2.00, with \$2.00 estimated, and the market quoted as follows, by the latest bulletin: "Packer and shipper's market for hogs very good, and prices were 5 to 10 cents higher." Receipts at Kansas City were 1,200 yesterday, and 8,000 Saturday and 17,000 on Friday, with a depressed market and lower range of prices from 5 to 10 cents. At St. Louis the market was 5 cents lower, with 4,000 hogs received. The weakness in provisions was ascribed to the break in grain and a decline of 5 to 10 cents for hogs at the yards. Ribs lost 10 cents, and the market held the local market held its own and closed at no lower decline than had been in effect all day, and with a fairly active trading for what receipts were on sale. The daily quotations were as follows: Yesterday: Tops, \$3.80; bulk of sales, \$3.75; average weight, 227; receipts, 123. For Saturday: Tops, \$3.75; bulk of sales, \$3.70; average weight, 225; receipts, 118. For the market last week: Tops, \$3.40; bulk of sales, \$3.35; average weight, 220; receipts, 115. For the same day last year: Tops, \$3.10; bulk of sales, \$3.05; average weight, 217; receipts, 110.

SHIPPERS AND NOTES.

Dan Winn was at the yards with a car of fat to good hogs. He reports that good, desirable hogs are still in the market, but that there are some few light coming in all the time, but on the whole it now takes considerably more riding through the country and hunting for them to get the better car of hogs than at any time with ready sale. He looks for a heavy increase, however, after harvest, and farmers feeling very hopeful.

Jim Sparks of Newburg Springs was in with a car of fat mediums which sold readily at a good price. He reports that hogs are still fairly plentiful all around his section, and it would be no difficulty to procure at the present time two cars a day of hogs at his point alone.

J. D. Ripley of Stafford was the last arrival at the yards with a car of good hogs, disposed of on the late market.

B. H. Smith of Sublette was at the yards with a car of fat cattle, which were yarded and held for reshipment to their destination.

Adam Hufbauer of Mulvane was a shipper of hogs during the day, his load being a fair lot of medium packers, going to coal.

Jeff Houston of Ponca City was on the market with two cars of good hogs, which went to hold. One was a lot of heavy medium, and without dock, and the other took the top price for the day for both car lots and wagon stock. The other load was made up of mixed mediums and sold well up.

The cattle division yesterday was not especially active. There was one car of fine southern cattle, cows and heifers, received by the Deit Packing company; one

SPAIN IS A BANKRUPT

This is the Way the Silver Market Treats Her.

SPANISH FOURS UP AGAIN

Elevating Influence the Being Peace Prospects.

London, June 6.—The silver market is cautious, quieting for future delivery. The price of silver is being depressed by the fact that Spain has suspended specie payment. The market is already treating Spain as a bankrupt and does not look any orders for silver unless the gold for it is deposited.

In spite of the increase in the coinage in last week's returns, the Bank of Spain shows a further decrease of 7,000,000 pesetas in its reserve, making a total of 14,000,000 pesetas since the beginning of the war.

SPANISH FOURS HIGHER. Madrid, June 6.—Spanish fours closed today at \$1.20. Gold was quoted at \$1.20. London, June 6.—Spanish fours closed at \$1.20, a net gain of 1/4.

Paris, June 6.—Spanish fours closed at 3 1/2, a net gain of 1/4. On the bourse here today prices opened firm, but afterwards became easier on reports of London selling. In the last hour, however, they recovered and closed firm. Spanish fours were very animated, owing to anticipations of peace, but eased slightly.

Berlin, June 6.—Business was quiet on the bourse today. Spanish fours and Italian and Turkish securities were firm. Northern Pacific were active in response to the tone of the New York market.
